EDUCATION

Bentley University Waltham, MA
Bachelor of Science, Majors: Data Analytics, AI for Innovation *May 2028*
Minors: Spanish for Business, Business Administration
President's List | GPA: 3.67
Relevant Coursework: Regression Analysis, Machine Learning, Database Management Systems,

TECHNICAL SKILLS

Programming Languages: SQL (Oracle), Python, R, HTML
Data and Analytics: Regression Analysis, Data Visualization, Data Cleaning, Pandas, Tidyverse, ggplot2, Streamlit
Tools and Platforms: Microsoft Excel, Google Sheets, VS Code, Oracle SQL Developer

PROJECTS

College Major Salary Analysis *MA 252, May 2026*
R, Regression Analysis, tidyverse, ggplot2
- Analyzed salary data for 172 college majors, fitting simple and multiple linear regression models to find what drives median earnings after graduation
- Used stepwise selection and model diagnostics (residual plots, Cook's distance, VIF) to build a final model that explains 62% of salary variation, with major category as the strongest predictor
- Created visualizations and a presentation to communicate the findings

New York Housing Market Explorer *CS 230*
Python, Pandas, Streamlit
- Built an interactive Streamlit app with a partner to explore New York housing data, cleaning and transforming the data and adding a price-per-square-foot measure
- Created filters by borough and price range, charts comparing prices across boroughs and neighborhoods, and a map of listings

Book Publishing Data Analysis *CS 350*
Oracle SQL
- Wrote 12 SQL queries on a 54-book, 13-publisher database, using joins, GROUP BY, and HAVING to analyze sales, ratings, and publication trends
- Found 17 books with over $500 million in sales revenue, 35 books rated above 8.0, and 8 publishers averaging over $300 million per book

EXPERIENCE

Small Format Team Member *August 2022 – Present*
Target *Stoneham, MA*
- Work across order fulfillment, guest service, and inventory, giving me a full view of how store operations connect
- Track 100 to 200 products per shift with handheld devices and inventory systems, keeping stock counts accurate across the backroom and sales floor
- Fulfill 30 to 40 guest orders daily for same-day pickup and delivery, and train new team members on store processes

SERVICE LEARNING

Bentley University *2024 – 2026*
- Waltham High School Investment Club (Spring 2026): Co-taught weekly investing lessons on EPS and P/E ratios, and coached a student group through building and presenting an Amazon stock pitch
- Taught foundational math to elementary students and supported high school students in a technology class with Google Sheets and other tools

ACTIVITIES

Bentley Coming Full Circle (CFC)
Member, First Generation Student and Service-Learning Program
